Remote Control

Installing Batteries

1. Slide open the cover of the battery compartment on the back of the remote control.
2. Load two 5# alkaline batteries in the compartment. (plus and minus poles to respective mark)
3. Replace the cover of the battery compartment.
Precautions

Make sure that there is no obstacle between the remote controller and television set.

As strong light may interfere the signals, change your position to operate the remote controller if the television cannot be turned on or off as you expect.

Keep the remote controller away from heat source or humid area to ensure effective performance of the remote controller.
Make sure that two 5# 1.5V alkaline batteries are loaded. The batteries must be of the same type. The batteries must be located properly. The batteries are not rechargeable.

5

Connection Instructions

Grounding

Ensure that you connect the grounding / earth wire to prevent possible electric shock. If grounding methods are not possible, have a qualified electrician install a separate circuit breaker. Do not try to ground the unit by connecting it to telephone wires, lightening rods, or gas pipes.

External Equipment Connections

Antenna Connection

- Antenna or Cable Service with a Cable Box Connections
- For optimum picture quality, adjust antenna direction if needed.

Signal
Amplifier

● To improve picture quality in a poor
   signal area, purchase and install a
   signal amplifier.
● If the antenna needs to be split for two
   TV's, install a "2-Way Signal Splitter"
   in the connections.
● If the antenna is not installed properly,
   contact your dealer for assistance.

Note: All cables shown are just for example.

6

Connection Instructions

VGA Input

You can use your LCD-TV as a monitor for your personal computer using a VGA cable (not supplied).

Connection and use steps:

1. Read the user guide supplied with your computer and ensure that it has a VGA connector;
2. Make sure that the power of the LCD -TV and the PC are off;
3. Connect a D type 15-pin VGA interface cable (not supplied) to the VGA video interface connector on the PC. Then connect the other end to the PC video interface connector on the back of the LCD-TV. Tighten the screws on the VGA connectors once they are firmly connected;
4. Turn on the power of the LCD-TV first , and then turn on the power of the PC;
5. Press the **TV/AV** button to set the video input mode of the LCD-TV to PC;
6. Check the image on your TV. There may be noise associated with the resolution, vertical pattern, contrast or brightness in PC mode. If noise is present, change the PC mode to another resolution, change the refresh rate to another rate or adjust the brightness and contrast on the menu until the picture is clear. If the refresh rate of the PC graphic card can not be changed, change the PC graphic card or consult the manufacturer of the PC graphic card.
Resolution

Mode	Resolution	Line frequency (Khz)	Frame frequency (Hz)
VGA	640*480	31.5KHz	60Hz
SVGA	800*600	37.9KHz	60Hz
XGA	1024*768	48.4KHz	60Hz

Note: All above listed are subject to VESA Criteria.

YPbPr Input

How to connect
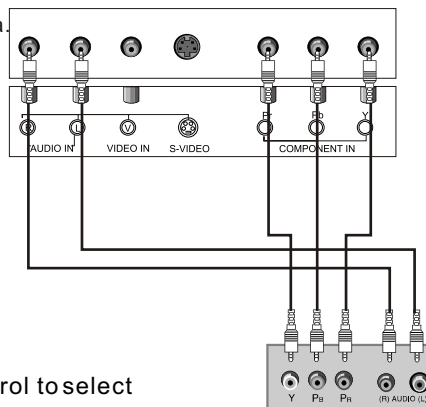

Connect the DVD video outputs (Y, PB, PR) to the COMPONENT(Y, Pb, Pr) IN jacks on the TV and connect the DVD audio outputs to the AUDIO IN jacks on the TV, as shown in the figure.

NOTE: If your DVD player does not have component video output, use S-Video.

How to use

1. Turn on the DVD player, insert a DVD.
2. Use the **TV/AV** button on the remote control to select

7

Connection Instructions

COMPONENT (If connected to SVIDEO,select the SV external
input source.)
3. Refer to the DVD player's manual for operating instructions.
Component Input ports
To get better picture quality, connect a DVD player to the component
input ports as shown below.

Component ports on the TV	Y	Pb	Pr

Video output ports on DVD player	Y	Pb	Pr
	Y	B-Y	R-Y
	Y	Cb	Cr
	Y	P_B	P_R

S-VIDEO Input

- To avoid picture noise (interference), leave an adequate distance between the
  VCR and TV

Connection and use steps:
1. Read the user guide supplied with your AV devices and ensure that it has
   S-Video connectors;
2. Make sure that the power of the LCD-TV and the AV device are off;

Connection Option 1
Set VCR output switch to 3 or 4 and then
tune TV to the same channel number.

Connection Option 2
1. Connect the audio and Svideo cables
   from the VCR's output jacks to the TV
   input jacks, as shown in the figure.
2. Insert a video tape into the VCR and
   press PLAY on the VCR. (Refer to the
   VCR owner's manual.)
3. Turn on the power of the LCD-TV first ;
   and then turn on the power of the AV
   device;
4. Press the **TV/AV** button to set the video
   input mode of the LCD-TV to S-VIDEO
   mode .

8
Connection Instructions

Cable TV Input

- After subscribing to a cable TV service from a local provider you can watch cable TV programming. The TV cannot display TV programming unless a TV tuner device or cable TV converter box is connected to the TV.
- For further information regarding cable TV service, contact your local cable TV service provider(s).

Connection Option 1
1. Select 3 or 4 with channel switch on cable box.
2. Tune the TV channel to the same selected output channel on cable box.
3. Select channels at the cable box or with the cable box remote control.

Connection Option 2
1. Connect the audio and video cables from the Cable Box's output jacks to the TV input jacks, as shown in the figure. When connecting the TV to a Cable Box, match the jack colors
   (Video = yellow, Audio Left = white, and Audio Right = red).
2. Select the input source by using the **TV/AV** button on the remote control.
3. Select your desired channel with the remote control for cable box.

Cable Box
External AV Source Input

How to connect
Connect the audio and video cables from the external equipment's output jacks to the TV input jacks, as shown in the figure. When connecting the TV to external equipment, match the jack colors (Video = yellow, Audio Left = white, and Audio Right = red).

How to use
1. Select the input source by using the **TV/AV** button on the remote control.
2. Operate the corresponding external equipment. Refer to external equipment operating guide.

18

TELETEXT

Some menu related function are not available in TELETEXT mode. MENU and AUTO AD control functions are not available in TELETEXT mode. If the TV is switched on by POWER after off in TELETEXT mode, or press TV/AV or PC button, the TELETEXT mode will disappear automatically.
Teletext features may vary depending on the Broadcasting Companies and is only available if the channel selected is transmitting Teletext. Pressing the TEXT button whilst in Teletext operation will switch the current status to TV. When in Teletext mode, the volume may still be altered to the desired listening level.

Page Selection

Pages can be selected in two ways:
   a. Press **P+** or **P-** button to increase or decrease the page number by one.
   b. By entering the page number, using the number keys on the remote control.

SIZE Button

Press SIZE button to change display size : normal→large top→large bottom →normal

REVEAL Button

Press REVEAL to reveal hidden words e.g. Quiz page answers . Press again to hide.

Red/Green/ Yellow/Cyan Buttons

These four buttons correspond to the differently colored subjects .

HOLD Button

Press HOLD button to remain the Teletext page when viewing multi-page information .

INDEX Button

Press INDEX button to return to the main index page .
Depending on the way information is transmitted , this may have to be pressed more than once to return to the main index page .

19

TELETEXT

SUBCODE Button

When Teletext information exceeds more than one page , it may take some time for the automatic changing of the sub pages to reach the sub page you require . It is possible to enter your required sub page and continue watching the normal programme until the correct sub page is found . Select the required page number using buttons 0-9 . If the top of the page indicates that sub pages are being transmitted yet the page does not change . Then the number at the top of the page is there to indicated that the broadcaster has updated the page's contents , there are no sub pages . Press SUBCODE button , page number/--- will be displayed at the bottom right of the screen. Enter desired sub page number before the page number/--- disappears . To select page 6 enter 0,0,0 and 6 .

TEXT Button

Press TEXT to enter Teletext mode and only the text page can be visible .

MIX Button

Press MIX button to enter Teletext mode and both the TV picture and text page can be visible.

TIME

While in normal TV mode only, pressing the button **TIME** will display the teletext time in the top right corner for a few seconds.

Note: The teletext buttons could be working even if there is no teletext signal, but there is no teletext display.

Troubleshooting Guide

• To assist in location possible faults use help guide below.

Troubleshooting

No picture, no sound	Verify if the television is properly plugged. Verify if the television is properly supplied power. Verify if electricity is available.
Blank screen	Verify if correct signals are input. Press TV/AV button to change signal input to TV input. Restart the television of power supply is interrupted.
No sound	Press MUTE button and verify if Mute mode is set. Switch to other channel and verify if the same problem happens. Press VOL+ button to see if the problem can be solved.
Poor sound	Verify if sound system is correct. Refer to some chapter for adjust.
No picture in some channel	Verify if correct channel is selected. Adjust the antenna. Make adjustments by FINE TUNE and MANUAL SEARCH.
No color for some channel program (black and white)	Verify if the same problem exists in other channels. Check out of picture and sound systems. Refer to relative instructions in the Manual for color adjust.
Spots with some or all pictures	Verify if the antenna is correctly connected. Verify if the antenna is in good condition. Make fine adjustment of channel.
Television out of control	Disconnect the television from power supply and, 10 seconds later, connect the television to the power supply. If the problem still exists, contact authorized after-sales service for technical assistance.

Note:

1.If the fault can not be repaired using the above guide consult with your local authorized service center.

2.The TV set must only be repaired by a qualified registered service person. Never attempt to remove the back cover as the TV set has dangerous voltages in side that may cause a fatally or fire.
