Overview

ProLiant BL e-Class Server Blade Enclosure (shown with 20 ProLiant BL10e server blades)

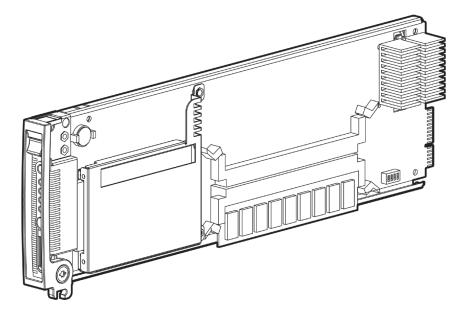

ProLiant BL10e Generation 2 (G2) Server Blade

Overview

What's New

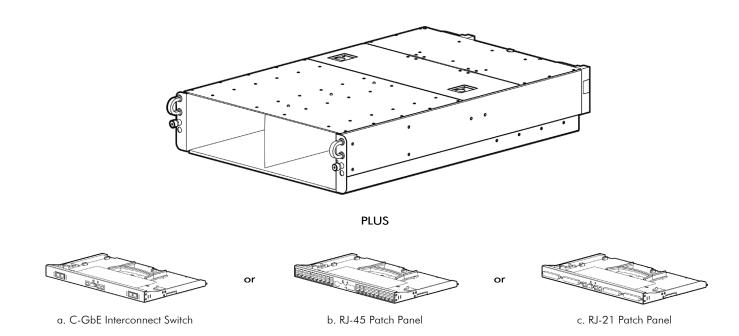

- One Ultra-Low Voltage Intel® Pentium® M 1GHz processor with 1-MB L2 cache
- Support for DDR memory
- ProLiant BL10e G2 Server Blade includes:
- One Ultra-Low Voltage ULV Intel Pentium M processor with 1-MB L2 cache (400-MHz front side bus)
- ServerWorks GC-SL chipset
- 512-MB C2100 Registered ECC DDR DIMM Memory standard expandable to 1024MB (2 DIMM slots)
- Two NC3163 Fast Ethernet NIC PCI 10/100 full WOL and PXE Integrated
- One 40-GB Ultra ATA/100 hard drive
- Server blades protected by HP Services, including a limited one year parts warranty with optional service uplifts available **ProLiant BL e-Class Server Blade Enclosure includes:**
- 3U high rack-mountable chassis with 20 server blade bays
- Can be purchased with 20 licenses for new ProLiant Essentials Rapid Deployment Pack at 50% of standard license list price!
- Dual, 1+1 redundant hot-plug power supplies
- Four, 2+2 redundant hot-plug fans
- Three available interconnect options: C-GbE Interconnect Switch; RJ-45 Patch Panel; and RJ-21 Patch Panel
- Server blade enclosure protected by HP Services, including a limited three year warranty with optional service uplifts available ProLiant BL e-Class Integrated Administrator features:
- Acts as a combination terminal server and remote power controller, enabling out-of-band, secure, serial console connections to all server blades and the optional interconnect switch
- Enclosure, interconnect switch and server blade health monitoring and alerts
- Command-line and browser-based management interfaces, including access permissions, for the server blades and the enclosure
- Provides access to the interconnect optional switch management interfaces
- SNMP, web and scriptable command-line interfaces

PLUS

Overview

Configuration Steps

For a complete configuration of the HP ProLiant BL e-Class system, do the following:

1. Select ProLiant BL10e G2 server blades sold [in a single-pack or 10-pack]

PLUS

Select Server Blade Enclosures (each can hold up to 20 ProLiant BL10e G2 server blades). The enclosure can be purchased bundled with 20 licenses for ProLiant Essentials Rapid Deployment Pack at 50% of the standard license price.
 (NOTE: Rapid Deployment Pack is optimized for configuring and deploying ProLiant BL10e G2 server blades and enable unique features such as blade "rip and replace" for effortless server redeployment.)

PLUS

3. Select one of the three Interconnect Tray options for each server blade enclosure (NOTE: Each interconnect tray includes an Integrated Administrator module.):

a. C-GbE Interconnect Switch (with 4 10/100/1000T Gigabit Ethernet RJ-45 uplinks for up to 40-to-1 network cable reduction!)

OR

b. RJ-45 Patch Panel (with 40 RJ-45 connectors)

OR

c. RJ-21 Patch Panel (with 4 RJ-21 connectors for cable aggregation behind the enclosure) (NOTE: If suitable for your environment, select also the RJ-21 to RJ-45 Cable Option kit.)

Standard Features

HP ProLiant BL10e G2 Server Blade

Processor	One Ultra-Low V	oltage Intel Pentium M 1GHz processor
Cache Memory	1MB Level-2 on-	die Cache
Chipset	ServerWorks GC-	SL chipset
		e information regarding ServerWorks, please see the following URL: works.com/products/overview.html
Memory	Standard	512MB PC2100 Registered ECC DDR DIMM Memory standard (1x512 MB)
	Maximum	1024 MB (2 DIMM slots total)
Network Controller	Two NC3163 Fa	st Ethernet NIC PCI 10/100 full WOL and PXE Integrated
Internal Storage	Hard Drive	One 40-GB Ultra ATA/100 5,400 rpm Non-Hot Plug hard drive
Warranty for the Server Blade	, , ,	Px5 NBD. HP Care Pack warranty upgrades available to add labor, on-site service, faster response times, to the standard server blade warranty.
Form Factor	Server blades plu	g vertically into HP ProLiant BL e-Class Server Blade Enclosure
Product Demo		uct Demo, please see the following URL, then click on "PRODUCT DEMO": paq.com/products/servers/proliant-bl/e-class/index.html

HP ProLiant BL10e G2 Server Blade Enclosure

Dimensions	5.25 inch Height (3U), 17.5 inch Width, 28.35 inch Depth			
	Bays for up to 20 ProLiant BL10e G2 server blades			
Rack Capability	Mounts in HP, HP-branded, third-party, and Telco racks. Rack mounting hardware for HP, Compaq-branded and third- party racks ships standard with each server blade enclosure. Telco rack-mounting hardware is a separately available option kit.			
Server Blade Enclosure	Rear bay for 1 of 3 Interconnect Tray configurations for network cable management (see below).			
includes	Two (2) Diagnostic Adapters for connecting keyboard, video, mouse and other devices locally to individual server blades			
	ProLiant Essentials Foundation Pack for ProLiant BL Servers, includes the Insight Managerä 7 and Management Agents CD and ProLiant Essentials Rapid Deployment Pack CD (trial version - 7-days, 10 nodes). (NOTE: The ProLiant BL e-Class server blade enclosure can also be purchased bundled with 20 licenses for Rapid Deployment Pack at 50% of the standard license price.)			
	Four (2+2 redundant) hot- plug fans			
	Dual (1+1 redundant) hot- plug power supplies (600 watts each), power cords			
	Server blade blanks (to fill 19 of the 20 server blade bays)			
	Rack mounting hardware for HP, Compaq-branded and third-party racks			
	Null-modem cable for serial connection to the Integrated Administrator serial "Console" connector			
	HP Documentation CD			
Warranty for Server Blade Enclosure	3 years on parts, labor and on-site service. HP Care Pack warranty upgrades available to add faster response times to the standard warranty.			

HP ProLiant BL e-Class Interconnect Trays

 NOTE: Each interconnect tray includes the Integrated Administrator module.

 Please see the following (3) interconnect tray configurations for accessing server blade network connections:

 ProLiant BL e-Class C-GbE Interconnect Switch (with 4 Gigabit Ethernet uplinks for up to 40-to-1 network cable reduction!)

 NOTE: See details below.

 RJ-45 Patch Panel (with 40 RJ-45 connectors)

 RJ-21 Patch Panel (with 4 RJ-21 connectors for cable aggregation behind the enclosure)

 NOTE: See "Other Options" below for RJ-21 to RJ-45 Cable option kit.

 Warranty
 3 years on parts, labor and on-site service. HP Care Pack warranty upgrades available to add faster response times to the standard warranty.

Standard Features

HP ProLiant BL e-Class Integrated Administrator ver. 1.40 Features

- Out-of-band local console and remote network access to the server blade enclosure and all 20 server blades via (one) RJ-45 10/100T Fast Ethernet and (one) RS-232 management connectors
- Provides local and remote access to the ProLiant BL e-Class C-GbE Interconnect Switch command console and browser-based management interfaces
- SNMP, Web (via HTTPS) and command-line interfaces (via Console connector, Telnet and Secure Shell)
- Remotely power on/off/reboot server blades and enclosures
- Remotely toggle on/off unit identification LEDs (UID) of server blades and enclosures
- Monitors and controls the enclosure fans, temperature sensors, power supplies, interconnect switch and server blade status
- Connect to each server blade's serial text console for enabling full control over server blade's
- Power-On Self Test (POST) and boot process, including the ROM-Based Setup Utility (RBSU).
 NOTE: For ProLiant BL10e G2 server blades running Windows® 2000 Server, there is now available a Serial Console for Windows utility that provides serial-based administrative functionality using the Integrated Administrator remote console feature. For more information and to download the Serial Console for Windows utility, go to the following page:
 - http://www.compaq.com/support/files/server/us/locate/20_2611.html
- User administration for up to 25 users. Server blade bay privileges can be set on a per-user basis
- Virtual NMI button generates non-maskable interrupt for crash debug and analysis
- Support for Network Time Protocol (NTP)
- IP Security feature limits access to user-specified IP addresses
- AlertMail enables email alerts for system events
- More than 100 scriptable commands enable automated management
- Selective enabling of all protocols, such as Telnet
- Logging of operating system console, server blade and enclosure hardware events, user actions and invalid login attempts
- Emergency server blade enclosure shutdown caused by a critical temperature
- Enclosure Link (2) connectors reserved for future use.
 CAUTION: The enclosure link (RJ-45) connectors on the interconnect tray are not to be used. Connecting an external device to these enclosure link (RJ-45) connecters may damage your external device.
 For more information on the ProLiant BL e-Class Integrated Administrator, please visit the Web site at: http://www.compag.com/products/servers/proliant-bl/e-class/integrated-admin.html

HP ProLiant BL e-Class C-GbE Interconnect Switch Features

- Provides up to a 40-to-1 reduction in network cables for each server blade enclosure using a pair of non-blocking layer 2 switch modules
- Four RJ-45 10/100/1000T Gigabit Ethernet uplinks
- Forty 10/100T Ethernet ports dedicated to server blade-to-interconnect switch network communications
- Communicate with all 40 server blade network controllers through any one uplink connector and the management connector
- Spanning tree protocol for loop-free path redundancy
- Browser, scriptable CLI, and console-based interfaces for local and remote interconnect switch management
- Manage entire interconnect switch through the Integrated Administrator connectors or any uplink connector
- Telnet, RMON and SNMP support; SNMP-based scripting utility with example scripts
- 256 Port-based IEEE 802.1Q tagged VLANs per switch processor module
- IGMP (internet group management protocol) snooping and quality of service (QoS) packet prioritization
- TFTP server support for rapid deployment of multiple interconnect switches and to provide backup and restore capabilities
- Industry-standard design compatible with industry-standard network components from leading network manufacturers
- Fully pre-configured for rapid deployment and immediate operation in ProLiant BL e-Class enclosure
- For more information on the ProLiant BL e-Class C-GbE Interconnect Switch, please visit the Web site at: http://www.compaq.com/products/servers/proliant-bl/e-class/interconnect-switch.html

Standard Features

Other Options

• RJ-21 to RJ-45 Cable option kit; contains four (4) 10 foot RJ-21 to RJ-45 cables (for use with the RJ-21 Patch Panel) interconnect tray

Diagnostic Adapter Interfaces

NOTE: Two Diagnostic Adapters are included with every ProLiant BL10e G2 Server Blade Enclosure.

ProLiant BL10e G2 server blade LEDs and buttons PS/2 Mouse PS/2 Keyboard Video Serial USB (2) NOTE: Please see the following URL for additional information regarding USB support: http://www.compaq.com/products/servers/platforms/usb-support.html. NOTE: This Web site is available in English only. NOTE: Server blades also support USB keyboard and USB mouse attached via the Diagnostic Adapter. The following USB devices have been tested for use with the ProLiant BL10e and the Diagnostic Adapter: USB Easy Access Keyboard (Carbon) (PN 267146-xx8) ٠ USB Easy Access Keyboard (Carbonite) (PN DC168B#) ٠ USB 2-Button Scroll Mouse (Carbon) (PN 195255-B25)

- USB 2-Button Scroll Mouse (Carbonite) (PN DC172B)
- USB Floppy (PN 304707-B21)

Standard Features

ProLiant Essentials Foundation Pack Software for the ProLiant BL Server	ProLiant Essentials Rapid Deployment Pack	Rapid Deployment Pack (RDP) is an automated deployment and provisioning solution for all ProLiant servers. RDP includes the Altiris Deployment Solution and ProLiant Integration Module featuring ProLiant server pre-configured events for OS installation, and optimized software drivers, firmware and management agents. Every RDP CD includes 10-node trial licenses for evaluation purposes. RDP requires a license for each server deployed and are available for purchase with blade servers. For more information, visit <u>http://www.hp.com/servers/rdp</u> .
	HP Systems Insight Manger	HP Systems Insight Manager (HP SIM) help maximize system uptime and performance and reduce system maintenance costs by providing proactive notification of problems before those problems result in unplanned downtime or reduced productivity. HP SIM is easy to set up to work with the Insight Management Agents, integrated Light-Out and Remote Insight Light-Out Edition, and Version Control Agents to deliver robust fault, configuration, and asset management as well as remote administration. With HP Systems Insight Manager customers will also be able to take advantage of role-based security; the ability to manage ProLiant, Integrity, and HP9000 systems; and plug-ins for storage, client, printer, and power management. For more details on HP Systems Insight Manager visit http://www.hp.com/go/hpsim .
	Management Agents	The Management Agents form the foundation for HP's Intelligent Manageability strategy. They provide direct, browser-based access to in-depth instrumentation built into HP servers, workstations, desktops, and portables, and send alerts to HP Systems Insight Manager and other enterprise management applications in case of subsystem or environmental failures. For additional information about the Management Agents and other management products from HP, please visit the management Web site at http://www.hp.com/servers/manage.
	Subscriber's Choice	Subscriber's Choice Driver and Support Alerts/Notifications is a web-based email subscription service that provides software and driver change notifications for ProLiant products. Sign up at http://www.hp.com/go/subscriberschoice and customize your profile to receive various new alerts as they become available, on a weekly or monthly basis.
	ROMPaq, support software, and configuration utilities	The latest software, drivers, and firmware fully optimized and tested for your ProLiant server and options, available in the RDP CD, SmartStart or downloadable from Software and Drivers download pages, linked from the SmartStart website at http://www.hp.com/servers/smartstart.
	Survey Utility and diagnostics utilities	The most advanced configuration analysis, reporting and troubleshooting utilities used by HP and at your fingertips, available in SmartStart.
	NOTE: For more information in http://www.hp.com/servers/prol	regarding ProLiant Essentials Software, please see the following URL: liantessentials

Optional ProLiant Essentials Value Packs Optional software offerings that selectively extend the functionality of an Adaptive Infrastructure to address specific business problems and needs:

- Workload Management Pack provides easier management of complex environments, improving overall server utilization and enabling Windows® 2000 customers for the first time to confidently deploy multiple applications on a single multiprocessor ProLiant Server.
- Performance Management Pack a performance management solution that identifies and explains hardware
 performance bottlenecks on ProLiant servers and attached options enabling users to better utilize their valuable
 resources.
- Intelligent Networking Pack detects and analyzes network bottlenecks or broken networking linkages and steers traffic to the optimum route based on network conditions.

NOTE: Flexible and volume quantity license kits are available for ProLiant Essentials Value Packs. Refer to <u>http://www.hp.com/servers/proliantessentials</u> or the various ProLiant Essentials Value Pack product QuickSpecs for more information.

Standard Features

SmartStart	SmartStart is a tool that simplifies single server setup, providing a rapid way to deploy reliable and consistent server configurations. SmartStart 7.00 and later can now deploy the ProLiant BL20P G3 and ProLiant BL40P servers, using the I/O port with an attached USB CD-ROM device. To obtain a copy of SmartStart for your blade server, redeem the coupon that is included with your Blade server or order your copy from the SmartStart web site. For more information, please visit the SmartStart Web site at http://www.hp.com/servers/smartstart . SmartStart version supported (minimum): SmartStart 6.20
Industry Standard Compliance	ACPI 1.0b compliant SDG 3.0 compliant Microsoft Logo certifications MIB-II (RFC 1213), Bridge MIB (RFC 1493), Interface MIB (RFC 2233), 801.1Q MIB (RFC 2684), RMON1 MIB (RFC 1757) groups 1, 2, 3, and 9, and Ethernet MIB (RFC1643) (ProLiant BL e-Class C-GbE Interconnect Switch interconnect tray option) IEEE 802.3, IEEE 802.3u, IEEE 802.3ab, IEEE 802.1D, IEEE 802.1p, IEEE 802.3ac and 802.1Q, IEEE 802.1Q, and IEEE 802.3x (ProLiant BL e-Class C-GbE Interconnect Switch interconnect tray option) SNMP v1 (RFC 1157) and RMON v1 (RFC 1757) groups 1, 2, 3, and 9 (ProLiant BL e-Class C-GbE Interconnect Switch interconnect tray option)
Intelligent Manageability	Insight Manager 7 HP Systems Insight Manager ROM Based Setup Utility (RBSU) Automatic Server Recovery (ASR-2) Enclosure Self Recovery (ESR) Advanced Configuration and Power Interface Specification Ready (ACPI) Server Blade and Enclosure Health Logs Redundant Power Supply Utility Power Down Utility Pre-Failure Warranty (covers processors, hard drives and memory) HP Interconnect Switch Management System and Utilities (included with the ProLiant BL e-Class C-GbE Interconnect Switch interconnect tray option)
Availability	Redundant Hot-Plug Power Supplies (ProLiant BL e-Class Server Blade Enclosure) Redundant Hot-Plug Fans (ProLiant BL e-Class Server Blade Enclosure) ECC Memory (ProLiant BL10e Server Blade) Redundant ROM (ProLiant BL10e Server Blade) Support for ProLiant network adapter teaming Dual network communication paths to each server blade using redundant, non-blocking layer 2 switch modules Redundant inter-module communication links Two redundant uplink ports per each interconnect switch module IEEE 801.1D Spanning tree protocol for loop-free path redundancy Redundant configurable community strings and SNMP trap manager hosts IEEE 802.3ad automatic multi-link load balancing and link failover (excluding LACP)
Security	Power-on password Administrator's password Secure Shell (SSH) access through the Integrated Administrator serial console ProLiant BL e-Class C-GbE Interconnect Switch interconnect tray option security Multilevel user names and passwords with configurable time out period setting Ability to disable web-based and Telnet access to the switch user interfaces 256 IEEE 802.1Q tagged VLANs per interconnect switch module Unicast and multicast static MAC address packet filtering table (layer 2 access control list) Ability to specify the IP based management stations that are allowed to access each switch Restriction on the maximum number of MAC addresses learned on a per port basis Secure shell (SSH) access to the switch command line and menu driven interfaces via the Integrated Administrator

Standard Features

OS.	Support
$\mathcal{O}\mathcal{O}\mathcal{O}$	Juppon

 NOTE: For a more complete and up-to-date listing of supported OSs and versions, please visit OS Support Matrix at: http://www.hp.com/go/supportos.
 NOTE: For a more complete and up-to-date information on Linux support, please visit HP Linux Web site at http://h18000.www1.hp.com/products/servers/linux/hpLinuxcert.html.
 NOTE: For a more complete and up-to-date information on Linux support, please visit HP Linux Web site at http://h18000.www1.hp.com/products/servers/linux/hpLinuxcert.html.

Rack Airflow Requirements Rack 10000 series Cabinets

The increasing power of new high-performance processor technology requires increased cooling efficiency for rack-mounted servers. The 10000 Series Racks provide enhanced airflow for maximum cooling, allowing these racks to be fully loaded with servers using the latest processors.

CAUTION: If a third-party rack is used, observe the following additional requirements to ensure adequate airflow and to prevent damage to the equipment

- Front and rear doors: If your 42U server rack includes closing front and rear doors, you must allow 5,350 sq cm (830 square inches) of hole evenly distributed from top to bottom to permit adequate airflow (equivalent to the required 64 percent open area for ventilation).
- Side: The clearance between the installed rack component and the side panels of the rack must be a minimum of 7 cm (2.75 inches)

CAUTION: Always use blanking panels to fill all remaining empty front panel U-spaces in the rack. This arrangement ensures proper airflow. Using a rack without blanking panels results in improper cooling that can lead to thermal damage. **NOTE:** Please consult the Setup & Installation Guide for the server for additional details.

Service and Support

Three-year limited warranty, including hardware diagnostic support, pre-failure warranty (coverage of hard drives, memory and processors). The warranty is fully supported by HP Services and a worldwide network of resellers and service providers. In addition 90-day's getting started software telephone support may be covered under the warranty or available for an additional fee. Enhancements to warranty services are available through HP Care Pack services.

NOTE: Sever Blade Limited Warranty includes 3 year Parts, 3 year Labor, 3-year on-site support. NOTE: Server Blade Enclosure and Interconnects Limited Warranty includes 3 year Parts, 3 year Labor, 3-year on-site support.

Care Pack services provide a range of life cycle support options that let you choose the service levels that meet your business requirements, from basic to mission-critical.

A full range of HP Care Pack hardware and software services are available including:

- Installation and start up
- Education courses
- Extended onsite hardware coverage hours from same business day 13 hours, 5 day to 24 hours, 7 days call window with options including 4-hour response or 6-hour Call To Repair
- Comprehensive range of software technical support for Microsoft, Linux, ProLiant Essentials and VMWare-based IT solutions helping to deliver high level of application availability. Response times range from 30 mins for critical problems to 2 hours.
- System Management, Performance Services and Mission Critical Support Solution

HP Care Pack services for ProLiant BL p-Class server blades, cover the server blade and the p-Class blade enclosure that the server blade is installed in as well as interconnects, power enclosure with power supplies and power distribution.

NOTE: For more information on HP Care Pack services, contact any of our worldwide sales offices or resellers or visit our worldwide Web site on the internet at: http://www.hp.com/hps/carepack

NOTE: For more complete information on HP Services offerings, customers and resellers, please visit us at: http://www.hp.com/hps

NOTE: Additional information regarding worldwide limited warranty and technical support is available at: http://h18004.www1.hp.com/products/servers/platforms/warranty/index.html

Models
